BULL SALE

Bred for Quality & Performance

36 Speckle Park Bulls

11 Crossbred Speckle Bulls

Friday 17th May, 2019 - 1pm

'Mount Mill', 1170 Coolah Creek Rd, Coolah

Live on AuctionsPlus

www.minnamurra.com.au

Welcome to Minnamurra

Like all cattle breeders across this country, we have faced drought conditions over the last twelve months which have been tough. But we have managed through well enough, and one positive outcome is that it has proved to us what good-doers these Speckle Park cattle are. They are proving themselves good foragers, and in spite of the harsh conditions, the cows are still carrying condition and raising their calves. It's as though the drought has brought the characteristics of the breed to the fore and has added to our conviction that Speckles have a real place in the Australian herd, which will only continue to grow into the future.

Bulls grazing in January 2018

Same paddock, February 2019

Our philosophy is that to breed good bulls, we have to focus on breeding good females, and the males will follow. Now that we are producing contemporary groups in sufficiently large numbers, we can begin to concentrate on the confirmation and fertility of our female lines, traits that are important in commercial herds. We have introduced two new sires into our AI program this year – River Hill 50T Crusader 025C, the top priced Speckle bull worldwide, and Double S JSF Rawhide 260D, another exciting young sire, which we think will be well suited to the commercial breeding requirements of this country.

Our program was again vindicated in the RNA Paddock to Plate competition last September, where our steers scored the highest individual index out of a field of 400 steers, and gained 2nd and 3rd place in the meat eating quality awards.

We look forward to seeing you on sale day and wish you well with your purchases.

SALE INFORMATION

GETTING THERE

"Mount Mill" is situated 10km from Coolah, NSW. See page 28 for map & accomodation details. Sale starts at 1pm.

PHONE BIDDING: Contact Agents 24 hours prior to sale.

SELLING SYSTEM AND BUYER'S REGISTRATION

All lots will be sold subject to the usual terms and conditions governing auction sales. Intending purchasers should obtain a Buyer's Number and registration slip available from the selling agents prior to the sale.

THE MINNAMURRA GUARANTEE

Any Minnamurra Speckle Park bull that proves to be structurally unsound, infertile or incapable of service is guaranteed for up to 6 months from date of sale.

Under these circumstances Minnamurra will replace the bull with a satisfactory substitute if available or issue a refund equal to the purchase price, less the salvage value.

The guarantee covers the purchase value of the bull, without interest, cost and damages. The guarantee shall apply providing the bull's incapacity is not caused by injury or disease contracted since leaving the sale. A veterinary certificate must be supplied by the purchaser on request.

If any bull that is purchased does not possess a reasonable fertility, although not totally infertile, any dispute that may arise shall be settled by an arbitrator appointed by the auctioneers and must be lodged within 6 calendar months from date of sale.

We recommend that all purchasers discuss injury insurance of their bulls at the sale with Elders Ltd or their Agent. This guarantee is in addition to the normal terms and conditions governing auction sales.

HEALTH TREATMENTS

All the sale bulls have been vaccinated for Vibriosis prior to sale. We recommend annual boosters are given to all bulls. All of our bulls receive 5 in 1 vaccinations at three-months of age, six weeks later and a booster as a yearling. They are drenched at weaning and periodically according to worm counts. Minnamurra has J Bas 7 Johnes status.

For bulls travelling to tick areas, Minnamurra will agist bulls for up to 2 weeks at the buyers risk until vaccinations can be arranged.

VET CHECK

All Minnamurra bulls were examined by Dr Chris Hallet prior to sale day which included palpation of the sexual anatomy, semen testing, sperm morphology and pestivirus DNA testing, as well as physical examination of their structure and feet.

FEED REGIME

The bulls were paddock reared and have been supplementary fed with pasture hay and pellets since January.

SCAN DATA

All bulls were scanned 11th April 2019 and the data submitted to Breedplan for EBVs. They will be scanned again two weeks prior to the sale and the raw data will be available on the supplimentary sheet on sale day, including scan data for the unregistered bulls.

NB: EBVs in the top 10% of the Speckle breed are highlighted with shading.

GENETIC TESTING

All pure bred bulls in this catalogue have been DNA tested for parentage. Two tested negative to the sires used in our AI program. These two bulls are marked unregistered in the catalogue and are being sold as such, as commercial bulls only.

FREIGHT

All bulls must be transported from Mount Mill by sundown Saturday. Formal possession, risk and expenses passes to the buyer at the fall of the hammer. Minnamurra can arrange transport through, and recommends, Dick Smith Transport.

Contact Steven Smith on 02 6882 2463 or mobile 0428 636 236.

PRE SALE INSPECTION

Bulls will be yarded by 8.30 am on the morning of the sale. Inspections are welcome at other times by arrangement.

CATERING

Morning tea and lunch will be provided at the sale.

NO VERBAL INSTRUCTIONS

Please fill out the buyers instruction sheet available on sale day from the office.

AGENT'S REBATE

A 2% rebate will be paid to all settling agents who accompany their clients on sale day or who introduce their clients in writing by fax or email at least 24 hours prior to the sale to Elders Tamworth Contacts@elders.com.au

GST

Bulls will be sold GST exclusive i.e. If the bull is knocked down for \$5,000, you will be charged \$5,500.

SUPPLEMENTARY SHEET

Updated weights, scans or any other new or relevant information will be available on sale day.

MOBILE RECEPTION

Optus service is good, but Telstra service is patchy. Wi-Fi will be available in the sales arena, so Telstra phones can be used if Wi-Fi calling is activated.

AUCTIONSPLUS

The sale is interfaced with AuctionsPlus and will be conducted live on line in real time. For those not able to attend the sale, new users must register 24 hours prior to the sale in order to bid. Note that transport must be organised sale day.

REFERENCE SIRES:

Codiak So Long George 6Z

With great stretch and hindquarters, this son of Codiak Oscar is proving to be a great easy calving heifer bull, and has been used extensively in Minnamurra's commercial crossbreeding program with great success. His calves show amazing consistency across all the bulls and females.

CODIAK PHLEP 3P

TRIPLE A TIDY DOLL 7J

JSF Redneck Whiskey 4B

Whiskey was sashed Junior Champion at Agribition in 2015, where we purchased a major share in him with Johner Stock Farm in Canada, and so far, we are delighted with his progeny. He is putting a beautiful head and shoulders on all his calves, while under the skin the marbling and eye muscle development is extraordinary. This bull can only do great things for the breed.

REDNECK REDNECK U ALMOST FROZE

REDNECK REDNECK TEDDY 5T

DAM: REDNECK WHISKEY 7W

REDNECK REDNECK SCARLET 1S

Six Star Royal Flesh Y101

His sons and daughters won 7 out of the 14 awards at Agribition in 2017, including Grand Champion Female. They exhibit extra growth compared to other sires, with high IMF and EMA scores, and his daughters have great udders and milk flow. His legs and feet are structurally perfect and has good testicular development. A leading sire in the Speckle Park breed.

LOT 1 MINNAMURRA NAPOLEON N25 (AI)

Napoleon N25 is an extremely well-muscled bull with plenty of softness and a very correct structure. He has the maturity pattern to fit all markets. A low birth weight with EBVs in the top 10% for growth, carcass, fats and IMF% - a very rare combination. This Whiskey son out of a Stands Alone cow has an excellent pedigree and is proving to be a great cross.

LOT 3 MINNAMURRA NORTON N134 (ET)

Norton N134 is one of the stand out bulls of this year's catalogue. A very quiet, complete Whiskey son that is very hard to fault. Its very rare to see a bull with such a low birth weight being one of the heaviest growth-for-age bulls catalogued, Lot 3 has a maturity pattern to suit all breeding programs, with a lot of muscle expression, yet soft with marbling. Norton N134 will breed very high meat quality and high grading progeny.

Lot 1 - NAPOLEON N25

LOT 3 - NORTON N134

LOT 5 - NORTHROP N132

MINNAMURRA TROPICAL SPECKLES

Minnamurra has embarked on a breeding program to produce a line of Bos Indicus infused Speckle Park bulls more suited to the climate of the central north of Australia. Our aim is to produce an animal with no more than 10% Bos Indicus genetics, to give a finely coated animal better able to handle the heat and buffalo fly problems of our northern country, yet retaining the do-ability, carcass traits, meat yield and eating quality that is the strength of the Speckle Park breed.

We have selected purebred Brangus females of no more than 25% Bos Indicus blood with extremely high marbling, eye muscle and maternal figures, which will be flushed to our best sires in a crossing program over the next few years to produce an animal that we hope will find a place in the central parts of our country where the main Australian herd resides.

The first cross bulls in lots 41 to 47 of this catalogue are all out of Minnamurra's best commercial Angus/Brangus females, joined to Royal Flesh 101Y, a great meat producing sire, and represent a similar type of animal to the tropical bulls we will be producing in the future.

Lot 47 - MPC N198

"MPC have taken the challenge and entered all runs of stock into commercial feed lot and performance trials with continuous success. Having seen the random runs of stock entered off all MPC properties, I am genuinely very impressed at their continuous success. Often it has been the tail cattle sent for judging, as the lead is either too heavy or have long been sold."

Andrew Hosken
Industry Livestock Specialist

SECOND CROSS SPECKLE BULLS

4 second cross commercial bulls on offer by Royal Flesh out of the best of our Whiskey first cross dams.
Born September 2017

STAR BANK KING GEORGE 82U

SIRE: SIX STAR ROYAL FLESH 101Y

STAR BANK 53R

REDNECK JSF WHISKEY 4B

DAM: MINNAMURRA F1 SPECKLE/ANGUS DAM

MINNAMURRA (TE MANIA) ANGUS DAM

LOT 37 N230

N230 is one of the best hindquartered bulls in the catalogue, and extremely well-muscled bull that really catches your eye. He is well balanced and efficient in his movement for a bull carrying this degree of yield.

\$ _____

LOT 38 N224

N224 is a very similar type of bull to Lot 37, a smaller framed, early maturing bull with tremendous muscle shape and body capacity. Lot 38 also walks and moves very freely for a bull with this amount of spring of rib and carcase yield.

\$ _____

LOT 39 N178

N178 is a very quiet, smooth fronted bull who will add testicular size and fertility to any cow herd.

\$ _____

LOT 40 N235

N235 is a moderate maturity, well framed bull with a lot of weight for age, not as heavily muscled as lots 37 and 38 but still showing a very strong top line, well suited to early maturity British bred females.

\$ _____

FIRST CROSS TROPICAL SPECKLE BULLS

7 first cross commercial bulls on offer by Royal Flesh out of the best of our Brangus/Angus dams. Born September 2017

STAR BANK KING GEORGE 82U

SIRE: SIX STAR ROYAL FLESH 101Y

STAR BANK 53R

DAM: MINNAMURRA BRANGUS/ANGUS (TE MANIA) DAM

LOT 41 N187

N187 is the first of the Bos Indicus infused cross bulls to be offered by Minnamurra. He provides everything the northern beef industry is looking for: heat resistance, adaption, fertility, muscle and temperament. One of the stand-out lots of this year's catalogue and well worth an inspection.

\$ _____

LOT 42 N214

N214 is a similar type of bull with bigger testicles and a lot of depth of body, softness and carcass potential.

\$ _____

LOT 43 N196

N196 is a very neat sheathed bull with a similar coat type to the bulls above and again very big testicles.

\$ _____

Lot 44 - N185

FIRST CROSS TROPICAL SPECKLE BULLS

LOT 44 N185

N185 is a standout individual, tremendous hind quarter and depth of muscle, slick coated and has the bone structure to produce high yielding carcasses. Lot 44 is well worth an inspection.

\$ _____

LOT 45 N192

N192 is a more Bos Indicus type of bull with a very sirey head and outlook. A soundly structured, efficient moving bull who can walk long distances to service females.

\$ _____

LOT 46 N250

N250 is one of the quietest natured bulls in the catalogue. Carries more Bos Indicus outlook with more ear and looseness of skin.

\$ _____

LOT 47 N198

N198 is a similar type of bull to Lot 46 carrying the same Bos Indicus characteristics with a very slick coat and a quiet temperament.

\$ _____

Lot 47 - N198

INSPECT OUR COW HERD

If you would like a closer look at some of our foundation cows and will still be in the area after our sale (and after voting), you are welcome to join us for a tour of Mount Mill on Saturday morning 18th May at 10am. Meet at the sales arena.

MINNAMURRA LEANDER L81

Minnamurra Leander L81 leads his contemporary group for daily weight gain, eye muscle Area, rib and rump fat and IMF%; no wonder he broke the Australian record for the top priced Speckle Park at \$35,000.

Traits Observed: 600WT, SS, FAT, EMA, IMF														

Not only does he have performance, he has type - long, smooth and thick, with great feet and legs, a wonderful outlook, large scrotal circumference, an easy fluent action and all with great temperament. He has no recorded birth weight, but be assured, all his calves to date have been below 40kg. Minnamurra Leander L81 has it all.

**For Leander L81 semen sales and enquiries, contact John Ellis at
Hanging Rock Speckle Park; mob 0418 313 853**

"As an industry participant for almost 40 years I have been fortunate to have dealt with MPC for 22 years and have seen the company grow in size and focus, with a continuous pursuit of quality and success. Business with MPC mostly sees highly satisfied purchasers and customers of store, feeder, slaughter and stud stock. MPC has built an enviable reputation for quality stock that perform very well in commercial situations.

Like most industry participants, I first looked at Speckle Parks as another niche breed wondering about what they had to offer. After closely watching MPC first evaluate, then expand their Speckle herd, I am convinced that Speckles will have a strong place in many Australian herds. They are proving on a regular basis to be highly successful in improving carcase quality, dressing and saleable meat yield. The F1 crosses across all breeds I have witnessed are highly functional commercial cattle producing quality carcasses suitable for all markets. I have listened to slicers' comments in boning rooms on MPC carcasses over large runs of cattle, seen MSA and kill sheet result, analysed kill & feedlot performance regularly - the MPC Speckle Park cattle are proving time and time again to be highly successful in real performance (i.e. making \$\$\$'s) and I believe will add real commercial value to any producer's herd."
