SPECKLE PARK SALE

Bred for Quality & Performance

61 Purebred Speckle Park Bulls

20 Purebred Speckle Park Heifers

Friday 4th September, 2020 - 1pm

'Mount Mill', Coolah Creek Rd, Coolah NSW

Live on AuctionsPlus
www.minnamurra.com.au

WELCOME

A big welcome to Minnamurra's sixth Speckle Park sale, whether attending on site at Mount Mill, or viewing online via AuctionsPlus. What a year it has been: drought, bushfires, breaking rains, and now a worldwide pandemic. But through it all beef prices have held firm, and the panic buying during the lockdown has reaffirmed the importance of agriculture, and animal protein in particular, in the modern diet. A positive note for the future of our industry.

The animals we are offering today have come through some of the toughest conditions in many a long year, and yet we believe that it is the best line up of bulls we have offered to date. Our Speckle Parks continue to amaze us with their ability to forage and convert on bare pastures. There are eight sires represented in the draft of bulls on offer, with almost half by our high indexing sire JSF Redneck Whiskey 4B, with half of those in the top 10% of the breed. We also have a nice draft of maiden and PTIC heifers joined to our newest sire, JFS Rawhide 260D, who is proving to be a high growth, easy calving heifer bull following his first drop this year. These are not our cull heifers, nor our best, but ones we would normally keep within our herd if it were not for our desire to make our genetics more widely available.

We were thrilled in July when our entry to the Land's Sire Shootout in the UK breed division, MPC Plunderer P196, won the overall Viewers' Choice Award with double the votes of the second-place getter, and a worldwide audience of 24,000. Look out for Plunderer in Lot 2 of this sale. And equally pleasing, our steers again won awards in the RNA Paddock to Palate contest for carcass quality for the fifth year in a row. It's pleasing to be benchmarked against the best to prove what we have long known ourselves: that our Speckle cross cattle have a distinct advantage over other breeds. With so many of our commercial cattle being finished off in feedlots during the drought over the last year, we were able to prove this superiority again in our own side by side test where our Speckle steers returned an average of \$149 per body more than the other prominent UK breed.

For all those unable to make it to Coolah for the sale this year due to travel restrictions, videos of all lots are available on our website and there will be audio in real time on AuctionsPlus for you to bid live.

Thank you for your support, stay safe, and I wish you well with your bidding.

Minnamurra Staff at last year's Spring Sale.

SALE INFORMATION

GETTING THERE

"Mount Mill" is situated 10km from Coolah, NSW. See page 56 for map & accomodation details. Sale starts at 1pm.

COVID RESTRICTIONS

The sale will be run in accordance with NSW Covid-19 protocols. Everyone will be required to register their name and contact phone number on arrival; face masks and hand gel will be available on site. There is plenty of room in the sale arena to practise social distancing. If you are unwell please do not attend. You will be able to bid online on AuctionsPlus.

PHONE BIDDING

Contact Agents 24 hours prior to sale.

SELLING SYSTEM AND BUYER'S REGISTRATION

All lots will be sold subject to the usual terms and conditions governing auction sales. Intending purchasers should obtain a Buyer's Number and registration slip available from the selling agents prior to the sale.

THE MINNAMURRA GUARANTEE

Any Minnamurra Speckle Park bull that proves to be structurally unsound, infertile or incapable of service is guaranteed for up to 6 months from date of sale.

Under these circumstances Minnamurra will replace the bull with a satisfactory substitute if available or issue a refund equal to the purchase price, less the salvage value.

The guarantee covers the purchase value of the bull, without interest, cost and damages. The guarantee shall apply providing the bull's incapacity is not caused by injury or disease contracted since leaving the sale. A veterinary certificate must be supplied by the purchaser on request.

If any bull that is purchased does not possess a reasonable fertility, although not totally infertile, any dispute that may arise

will be settled by an arbitrator appointed by the auctioneers and must be lodged within 6 calendar months from date of sale.

We recommend that all purchasers discuss injury insurance of their bulls at the sale with Elders Ltd or their Agent. This guarantee is in addition to the normal terms and conditions governing auction sales.

HEALTH TREATMENTS

All the sale bulls have been tested negative to Pestivirus and have been vaccinated for ticks and Vibriosis prior to sale. We recommend annual boosters be given to all bulls. All of our bulls receive 5-in-1 vaccinations at three-months of age, six weeks later and a booster as a yearling. Heifers have been vacinated with 7-in-1. All animals are drenched at weaning and periodically according to worm counts. Minnamurra has J Bas 7 Johnes status.

VET CHECK

All Minnamurra bulls were examined by Dr Chris Hallet prior to sale day which included palpation of the sexual anatomy, semen testing, sperm morphology and pestivirus DNA testing, as well as physical examination of their structure and feet.

Stress, transport and nutritional changes can affect a bull's semen cycle for up to 70 days. If you move your bull to a completely different environment, we strongly recommend you do your own fertility examination prior to use.

All purebred heifers have had their reproductive tracts checked by Dr Stuart Geard and all have been confirmed to possess two ovaries. All PTIC 'P' heifers have been preg tested to JSF Rawhide 260D prior to the sale.

FEED REGIME

All the bulls and heifers were fed in a feedlot for 4 months at 10-12 months of age to keep their growth and maturity pattern developing during the drought. They have been on pastures, supplimented with hay, since then.

SCAN DATA

All 'P' bulls were scanned on 24th February, 'Q' bulls on 22nd June, and their data submitted to Breedplan for EBV determination. They will be scanned again two weeks prior to the sale and the raw data will be available on the supplementary sheet on sale day, including scan data for the unregistered bulls.

'P' heifers were scanned on 27th April and their data submitted to Breedplan. 'Q' heifers will be scanned and their data submitted prior to the sale. Their raw data will be available on the supplementary sheet.

NB: EBVs in the top 10% of the Speckle breed are highlighted with green shading; EBVs above the breed average are highlighted in red.

GENETIC TESTING

All purebred bulls & heifers in this catalogue have been DNA verified for parentage except for the red coated bulls that are excluded from registration. (These have been marked in the catalogue as unregistered and are being sold as commercial bulls only). All purebred animals have been tested for poll, coat and myostatin. Bulls have also been tested for Leptin (tenderness). Results are recorded against each animal as follows:

DNA Test Keys:

P:C	Carries one horn gene
P:F	Free of the horn gene
P:-	Not tested
R:C	Carries one red gene
R:F	Free of the red gene
R:N	No result returned
M:C	Carries one myostatin gene
M:F	Free of the myostatin gene
L: C/C	Unmutated leptin genes
L: C/T	One mutated leptin gene
L: T/T	Two mutated leptin genes

SEMEN RIGHTS

Minnamurra retains the semen rights for in-herd use only in a number of bulls in this catalogue, as noted under the lot number. If the right to collect semen is exercised,

Minnamurra will consult with the new owner of the bull to arrange a convenient time for collection, with the cost of collection being paid for by Minnamurra.

FREIGHT

All bulls must be transported from Mount Mill by sundown Sunday. However, if Covid transport restrictions prevent buyers meeting this deadline, Minnamurra will agist bulls for up to three months at a rate of \$7.50 per head per week until restrictions are lifted. Formal possession, risk and expenses passes to the buyer at the fall of the hammer. Minnamurra can arrange transport through, and recommends, Dick Smith Transport.

Contact Steven Smith on 02 6882 2463 or mobile 0428 636 236.

PRE SALE INSPECTION

Bulls will be yarded by 8.30 am on the morning of the sale. Inspections are welcome at other times by arrangement.

SUPPLEMENTARY SHEET

Updated weights, scans or any other new or relevant information will be available on sale day.

CATERING

Morning tea and lunch will be provided at the sale.

MOBILE RECEPTION

Optus service is good, but Telstra service is patchy. Wi-Fi will be available in the sales arena, so Telstra phones can be used if Wi-Fi calling is activated.

NO VERBAL INSTRUCTIONS

Please fill out the buyer's instruction sheet available on sale day from the office.

AGENT'S REBATE

A 2% rebate will be paid to all settling agents who accompany their clients on sale day or who introduce their clients in writing by fax or email at least 24 hours prior to the sale to Elders Tamworth (contacts@elders.com.au).

GST

Bulls will be sold GST exclusive i.e. If the bull is knocked down for \$5,000, you will be charged \$5,500.

The sale is interfaced with AuctionsPlus and will be conducted live on line in real time. For those not able to attend the sale, new users must register 24 hours prior to the sale in order to bid. Full instructions are on the AuctionsPlus website. Note that transport must be organised sale day.

Qualitas Q1 is a sirey headed, stylish, sound fronted bull who always holds his head above his spine. Lot 61 will breed beautiful replacement females.

PUREBRED SPECKLE PARK HEIFERS

All heifers have had their reproductive tracts checked by Dr Stuart Geard and all have been confirmed to possess two ovaries. The 'P' heifers were AI'd to JSF Rawhide 260D on 18/6/2020 and have been pregnancy tested in calf by Dr Chris Hallet on 12/8/20. They are due to calve in March/April 2021 as two-and-a-half year olds. The 'Q' heifers are maidens and have not been running with bulls.

RNA Paddock to Plate 2018	2nd & 3rd of the 70 day trade class teams

“MPC have taken the challenge and entered all runs of stock into commercial feed lot and performance trials with continuous success. Having seen the random runs of stock entered off all MPC properties, I am genuinely very impressed at their continuous success. Often it has been the tail cattle sent for judging, as the lead is either too heavy or have long been sold.”

Andrew Hosken
Industry Livestock Specialist
