# **Bred for Quality & Performance**

# 70 Purebred Speckle Park Bulls

25 two-year-old bulls and 45 yearling bulls 70 F1 Speckle/Angus PTIC Heifers

# Friday 2nd September, 2022 - 1pm 'Mount Mill', Coolah Creek Rd, Coolah NSW

Bid live on AuctionsPlus www.minnamurra.com.au

# **WELCOME**

**Welcome to Minnamurra's 8th Speckle Park Sale.** With 940mls of rain this past year at Coolah and a buoyant cattle market we are entering another great season.

This is an exceptional time to be involved with Speckle Park cattle. With the growing success of the breed, demand has skyrocketed. Producers can be confident in the quality of the fantastic bloodlines available in Australia now (among the best of the Speckle Park breed). We expect to see Speckle Park continue to go from strength to strength.

This year we are excited to offer 22 Crusader 025C sons. This is the first offering of Crusader 025C calves in Australia. We have every confidence that he will prove to be an exceptional sire for the commercial industry here.

**Lot Videos.** Videos of all lots will be available by 8th August on our website or via the QR code on the back cover. There will be audio in real time on AuctionsPlus so you can bid live if you are unable to make it to Coolah this year.

**Our Breeding Program.** At Minnamurra we are committed to the continual improvement of our breeding program. After 11 years we are now turning out over 400 calves per annum. This gives us a large contemporary group to evaluate our sires. It also allows us to class deeper into our female herd to ensure that we are producing the right style of commercial bull suited to Australian conditions.

We have added top priced bulls from the JAD and Te Mooi sales this year to provide us with high quality cover bulls for our AI program. We have also added an excellent AI sire in Maungahina Rising Star R286.

Carcase Competitions. We continue to enter steers in the two major carcase competitions—the Beef Spectacular at Jindalee and the National Beef Carcase Competition at Rockhampton. We feel it is important to benchmark Speckles against all other breeds. To date they have performed extremely well, as our results on the inside back cover attest. We didn't enter the RNA Paddock to Plate this year as we had already sold all our weaners, (the prices were too good to miss). Our Angus steers did well in the Beef Spectacular though, winning the Premium Black Angus Champion Pen.

Other Activities. We are helping in the development of the Classimate visual livestock

assessment app for Speckle Park breeders. This will allow objective measuring, recording and comparison of structural assessment data between animals.

**Transporting your bulls.** Please note our freight offer for interstate buyers, as well as free local deliveries within 150km of Mount Mill.

Thank you for your support and we wish you well with your bidding.

# **SALE INFORMATION**

#### **GETTING THERE**

"Mount Mill" is situated 10km from Coolah, NSW. See page 75 for map & accommodation details. Sale starts at 1pm.

#### **COVID RESTRICTIONS**

The sale will be run in accordance with NSW Covid-19 protocols. Everyone will be required to register their name and contact phone number on arrival; face masks and hand gel will be available on site. There is plenty of room in the sale arena to practise social distancing. If you are unwell please do not attend. You will be able to bid online on AuctionsPlus.

#### PHONE BIDDING

Contact Agents 24 hours prior to sale.

# SELLING SYSTEM AND BUYER'S REGISTRATION

All lots will be sold subject to the usual terms and conditions governing auction sales. Intending purchasers should obtain a Buyer's Number and registration slip available from the selling agents prior to the sale.

#### THE MINNAMURRA GUARANTEE

Any Minnamurra Speckle Park bull that proves to be structurally unsound, infertile or incapable of service is guaranteed for up to 6 months from date of sale.

Under these circumstances Minnamurra will replace the bull with a satisfactory substitute if available or issue a refund equal to the purchase price, less the salvage value.

The guarantee covers the purchase value of the bull, without interest, cost and damages. The guarantee shall apply providing the bull's incapacity is not caused by injury or disease contracted since leaving the sale. A veterinary certificate must be supplied by the purchaser on request.

If any bull that is purchased does not possess a reasonable fertility, although not totally infertile, any dispute that may arise will be settled by an arbitrator appointed by the auctioneers and must be lodged within 6 calendar months from date of sale.

We recommend that all purchasers discuss injury insurance of their bulls at the sale with Elders Ltd or their Agent. This guarantee is in addition to the normal terms and conditions governing auction sales.

#### **HEALTH TREATMENTS**

All the sale bulls have been tested negative to Pestivirus and have been vaccinated for ticks and Vibriosis prior to sale, allowing access to Qld. We recommend annual boosters be given to all bulls. All of our bulls receive 5-in-1 vaccinations at three-months of age, six weeks later and a booster as a yearling. All animals are drenched at weaning and periodically according to worm counts. Minnamurra has J Bas 7 Johnes status.

#### **VET CHECK**

All Minnamurra bulls were examined by Dr Chris Hallet prior to sale day which included palpation of the sexual anatomy, semen testing, sperm morphology and pestivirus DNA testing, as well as physical examination of their structure and feet. Some of the 'R' bulls were used in a 6 week joining period over commercial heifers in Nov/Dec last year.

Stress, transport and nutritional changes can affect a bull's semen cycle for up to 70 days. If you move your bull to a completely different environment, we strongly recommend you do your own fertility examination prior to use. Similar precautions should be excercised prior to drawing a bull.

#### **FREIGHT**

All bulls must be transported from Mount Mill by sundown Sunday. Minnamurra will personally deliver bulls to buyers whose properties lie within a 150km radius of Mount Mill free of charge. Formal possession, risk and expenses passes to the buyer at the fall of the hammer. Minnamurra can arrange transport through, and recommends, Dick Smith Transport.

# For interstate buyers, Minnamurra will arrange and cover freight costs as far as the Qld, Vic or SA border

Contact Steven Smith on 02 6882 2463 or mobile 0428 636 236.

#### **FEED REGIME**

All the bulls were reared on improved green pastures and hay from birth. For the last three months they have been fed on a ration of 20% barley/wheat straw and molassis.

#### **SCAN DATA & EBV's**

All bulls were scanned on 19th May, and their data submitted to Breedplan for EBV determination. They will be scanned again two weeks prior to the sale and the raw data will be available on the supplimentary sheet on sale day, including scan data for the unregistered bulls.

NB: EBVs in the top 10% or better of the Speckle breed are highlighted with green shading; EBVs above the breed average (B.Av) are highlighted in red.

#### **GENETIC TESTING**

All purebred bulls in this catalogue have been DNA verified for parentage except for two bulls. (These have been marked in the catalogue as unregistered and are being sold as commercial bulls only). All purebred animals have been tested for poll, coat and myostatin. Bulls have also been tested for Leptin (tenderness). Results are recorded against each animal as follows:

#### **DNA TEST DATA:**

L: T/T

Key codes to the DNA tests shown against each lot in the catalogue are as follows:

| P:C | Carries one horn gene |
|-----|-----------------------|
| P:F | Free of the horn gene |
| P:- | Not tested            |

R:C Carries one red gene
R:F Free of the red gene
R:N No result returned

M:C Carries one myostatin gene
M:F Free of the myostatin gene
L: C/C Unmutated leptin genes
L: C/T One mutated leptin gene

Two mutated leptin genes

#### **SEMEN RIGHTS**

Minnamurra retains the semen rights for in-herd use only in a number of bulls in this catalogue, as noted under the lot number. If the right to collect semen is exercised, Minnamurra will consult with the new owner of the bull to arrange a convenient time for collection, with the cost of collection being paid for by Minnamurra.

#### PRE SALE INSPECTION

Bulls will be available for inspection from 8am on the morning of the sale. They will be moved into the sale arena and yarded at 11am. Inspections are welcome at other times by arrangement.

#### SUPPLEMENTARY SHEET

Updated weights, scans or any other new or relevant information will be available on sale day.

#### **CATERING**

Morning tea and lunch will be provided at the sale.

#### MOBILE RECEPTION

Optus service is good, but Telstra service is patchy. Wi-Fi will be available in the sales arena, so Telstra phones can be used if Wi-Fi calling is activated.

#### **NO VERBAL INSTRUCTIONS**

Please fill out the buyer's instruction sheet available on sale day from the office.

#### **AGENT'S REBATE**

A 2% rebate will be paid to all settling agents who accompany their clients on sale day or who introduce their clients in writing by fax or email at least 24 hours prior to the sale to Elders Tamworth (contacts@elders.com.au).

#### **GST**

Bulls will be sold GST exclusive i.e. If the bull is knocked down for \$5,000, you will be charged \$5,500.

The sale is interfaced with AuctionsPlus and will be conducted live on line in real time. For those not able to attend the sale, new users must register 24 hours prior to the sale in order to bid. Full instructions are on the AuctionsPlus website. Note that transport must be organised sale day.

#### PRE-REGISTRATION

We are encouraging all buyers to please register online before sale day by scanning the QR code below. Please collect your bidder number from the Elders sale office at Mount Mill on sale day prior to Auction.

Note that pre-registrations will close the day before the sale at 5pm - 1/09/2022. However, registrations will still be available on sale day.

#### **SETTLING YOUR BULLS IN**

We strongly recommend that you have some other cattle in the yards to welcome your new addition. All our bulls have been running in their contemporary groups since birth, so it can be quite distressing for them to be left in a yard by themselves after being trucked. We can assure you that our bulls are handled extensively with low stress practices prior to sale - everything from vaccinations, being washed 3 times (photos, videos and pre-sale), fertility testing, scanning, branding, etc. Also, when cataloguing, we put each bull by himself to ensure his temperament is sound. Despite this we still find that the odd bull will fire up when he reaches his new home. There is a subtle difference between a bull that is frightened and trying to defend himself, and one that is straight out aggressive. Despite our best efforts to deliver you a nice quite bull, we still have the odd one that doesn't want to play the game. If this does happen, we are truly sorry, but please don't hesitate to get in touch with us so we can resolve the problem.

Note that yearling bulls i.e., our 'S' bulls, should be depastured with no more than 20 cows for their first joining, until they have fully matured.

# Please bring this Catalogue to the Sale

**DISCLAIMER:** Minnamurra Pastoral Company, the selling agents, officers, agents and employees, while exercising due care, provide all information without responsibility and do not warrant its accuracy. They also accept no responsibility for accidents that occur on or about the venue. You attend the venue and the sale at your own risk.

# **REFERENCE SIRES:**

#### **JSF REDNECK WHISKEY 4B**

Whiskey was sashed Junior Champion at Agribition in 2015, where we purchased a major share in him with Johner Stock Farm in Canada, and are delighted with his progeny. He is putting a beautiful head and shoulders on all his calves, while under the skin the marbling and eye muscle development is extraordinary. This bull is doing great things for the breed.

#### **RIVER HILL CRUSADER 025C**

Crusader was the standout bull at the 2016 Summit 3 Sale in Canada and the highest priced Speckle bull at the time. He is a well-muscled and well covered bull with great carcase attributes. We have had no calving problems with Crusader so far and his bulls have plenty of length. He is breeding good females. so we have great hopes for this sire. This is the first year his sons are offered for sale in Australia.

#### **DOUBLE S JSF RAWHIDE 260D**

One of the newer sires in the Minnamurra stable, Rawhide is maturing into great bull, similar to Whiskey. His calves that have dropped so far are low birth weight and easy out. We are very excited about this bull.

#### **JOHNER STOCK FARM UNMARKED 2D**

Unmarked is a real meat machine and is constantly producing top class females and bulls with the same quiet temperament. His owner David Johner, Johner Stock Farms Canada, describes him as the most complete bull he has seen in the breed. We have used him extensively over our white females the last two years to introduce more speckled coats into our herd.

#### **SIX STAR ROYAL FLESH 101Y**

His sons and daughters won 7 out of the 14 awards at Agribition in 2017, including Grand Champion Female. They exhibit extra growth compared to other sires, with high IMF and EMA scores, and his daughters have great udders and milk flow. His legs and feet are structurally perfect and has good testicular development. A leading sire in the Speckle Park breed.

# **DNA Sampling Simplified**

TSU, paired to matching NLIS and Management tags, creating an absolute sample-to-animal linkage!

ABCD1234 M123

ABCD1234 M124

Allflex Livestock Intelligence

# **Tissue Sampling Unit (TSU)**

- Clean, uncontaminated testing, yielding excellent lab results.
- Easy-to-use; collect samples in seconds with a single-squeeze motion.

96-vial well plate protects samples and is compatible with testing laboratories systems.

Also available in bulk packs!

Saturn is clearly one of the stand-out lots of this year's catalogue. A young sire who will take your breeding program to another level. A very low birthweight bull with tremendous growth, yield and carcase potential. Lot 26 walks like a sire, so proud and efficient, with so much length of body like he has an extra rib. Suitable for heifers. MPC retains the right to collect 200 straws of semen at a future date. (Video available online).

The dam of Lot 35 is in our donor program with 17 registered calves to date and 3 sons in this catalogue. A big volume, high-capacity female with an excellent bag of milk. Lot 35 displays good weight for age with a lighter birthweight and a shoulder placement well suited to heifers. Lot 35 has scurs.

Stellar has caught the eye of a lot of good judges and is one of the stand-out lots catalogued this year. A young sire with traits stacked for profitability. It's rare to combine meat quality, EMA, fats, high sexual maturity, and birthweight all in the one package. Lot 37 will have a stellar impact on the breed. MPC retains the right to collect 200 straws of semen at a future date.

Another young sire that will have a lot of boxes ticked in your catalogue. The Crusader X Whiskey genetics have blended well. Lot 43 shows good weight and length of body and will give you several options of markets with his progeny. A clean fronted, stylish sire who strides out, stands square with his head above his spine. Suitable for heifers.

A bull that will take your eye. An extremely thick, well-muscled bull who stands square and correctly every time. It's a hard genetic combination to have this much carcase with such efficiency of movement. This tells you Lot 54's shoulder placement and structure are near perfect. A low birthweight bull suitable for heifers.

A very slick coated, fine haired bull with a smooth muscle pattern and not coarse in any way. Have a night out with Savoy, he's perfect for heifers. (Video available online).

## F1 SPECKLE PARK x ANGUS PTIC COMMERCIAL HEIFERS

A great line of two-year-old PTIC maiden heifers out of some of Minnamurra's best Te Mania blood Angus commercial cows are offered for sale in lots of 10. Born in September 2020, these heifers are part of our commercial AI program by Minnamurra Leander or else other Minnamurra stud bulls. They are in calf to either Whiskey bulls Nighthawk N112 or Quicksilver Q2, or else JAD Kidman Cove bulls Q1 or Q2. These lovely full frame heifers are quiet in temperament, are used to being handled by horses and dogs, and should fit in the top end of any commercial herd. (Videos will be available online just prior to the sale).
